PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building enterprise web applications using Angular and TypeScript, skilled in REST API integration and proficient in AI development tools (ChatPRD, Cursor AI Pro, Codex 5.4, Antigravity) to accelerate delivery across the full stack. Recipient of the AI Transition Award at Petro Infotech — practical, fast-learning, and ready to contribute meaningfully from day one.

TECHNICAL SKILLS

Languages: HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, Python
Frontend: Angular, Reactive Forms, Router & Guards, RxJS (basic), Bootstrap, PrimeNG, SweetAlert2, Toastr
APIs & Backend: REST APIs, Angular HttpClient, JSON Server; basic working knowledge of ASP.NET Web API; basic PL/SQL exposure
AI Tools: ChatPRD, Cursor AI Pro, Claude, ChatGPT, Gemini, Codex 5.4, Antigravity
Dev Tools: GitHub, VS Code, Node.js CLI, PyCharm

WORK EXPERIENCE

Junior Software Engineer | Petro Infotech

Oct 2025 – Present

- Develop and maintain enterprise web applications for Petroleum Development Oman (PDO), contributing to Smart Asset Management System (SAMS), PTMS, IGC-MIS, and enterprise dashboards using Angular, TypeScript, ASP.NET Web API, SQL Server, PL/SQL, and REST APIs.
- Build and enhance business-critical full-stack modules, developing Angular components, backend APIs, database-driven workflows, REST API integrations, new features, and performance improvements.
- Collaborate with cross-functional Agile teams of developers, QA engineers, business analysts, and project managers to troubleshoot production issues, resolve defects, participate in code reviews, and deliver scalable and reliable enterprise software.
- Leverage AI-assisted development tools including Cursor AI Pro, Codex, ChatPRD, and Antigravity for development, debugging, testing, and optimization; received the AI Transition Award for contributions to AI adoption across the SDLC.

Frontend Developer Intern | Edunet Foundation

Jun 2024 – Jul 2024

- Built a responsive e-commerce web app with product listings, category filters, search, and checkout using HTML, CSS, and JavaScript; improved UI consistency and accessibility throughout.

PROJECTS

DigiHR — Angular, TypeScript, ASP.NET Web API, REST APIs, PL/SQL

- Developed and enhanced frontend features for DigiHR, building Angular components, services, and routing logic for employee management, payroll, and attendance modules, while integrating REST APIs for seamless frontend–backend communication.
- Contributed to a government-customised deployment (NBG DigiHR) for a public-sector entity in Oman, adapting frontend logic and API integrations to meet client-specific compliance and workflow requirements.
- Performed manual QA testing, gaining strong understanding of application workflows and improving functional reliability across modules.

IGC-MIS — Angular, TypeScript, ASP.NET Web API, REST APIs, PL/SQL

- Contributed to AI-assisted full-stack development of IGC-MIS, working across Angular UI, ASP.NET Web API, and PL/SQL database layers to deliver application features.
- Leveraged AI tools to accelerate development, assist with debugging, and streamline integration of REST APIs and stored procedure–driven workflows.

CareerConnect — Angular, TypeScript, PrimeNG, SweetAlert2, SCSS

- Built a role-based job board application from scratch with Job Seeker and Employer workflows, implementing route guards, personalised dashboards, and end-to-end CRUD functionality.
- Delivered a clean and interactive user experience using PrimeNG components and SweetAlert2 for alerts, confirmations, and notifications.

EDUCATION

B.Tech — Computer Science Engineering, BSA Crescent Institute of Science and Technology, Chennai 2021–2025 | CGPA: 7.75

Higher Secondary (Class XII), Velammal Vidhyashram Surapet, Chennai

2019–2021 | percentage: 81.2

CERTIFICATIONS

- Full Stack Developer — OneRoadmap (2025)
- Python — OneRoadmap (2025)
- Front-End Development — IBM SkillsBuild (2024)
- Prompt Engineering: How to Talk to AI — LinkedIn (2023)
- Get Ready for Generative AI — LinkedIn (2023)

AWARDS & RECOGNITION

- AI Transition Award — Petro Infotech:** Recognised for integrating AI development tools (ChatPRD, Cursor AI Pro, Codex 5.4) into live development and testing workflows, contributing to the organisation’s AI adoption roadmap across the SDLC.
